NOTES

(1) Numbers by symbols refer to bibliography.
(2) Maps compiled by J. Phillip Angle, Peter C. Harper, Margaret A. Bridge, and Maria M. Boyd.

Notes

A number in parentheses following the name of a locality indicates the number of breeding-site symbols shown on the map at that locality.

A bracket which groups two or more geographic names indicates that the localities are represented by a single breeding symbol.

A question mark following a geographic name means confirmation of breeding is needed for that site.
